Issuance:	1100	<b>Procedures for Investigation of Baby Doe Cases in New Jersey</b>	

[Click here to view the Procedures for Investigation of Baby Doe Cases in New Jersey.](#)

### PURPOSE AND USE

This outline was developed by the Institutional Abuse Investigation Unit to inform hospitals of policy and procedures for:

- Investigating alleged medical neglect of disabled children with life-threatening conditions; and
- Maintaining a list of contact persons in each medical facility throughout New Jersey who are available for consultation, coordination, and notification (pursuant to P.L. 100-294).

IAIU distributes this outline to all acute care facilities.
